## Councils: verify list of all reporting councils and conferences

1. Find your council in the database
2. On the top of the council's page, click on the arrow beside your council's name.

3. Verify that all councils and conferences are listed correctly. Click on a particular council or the isolated conferences link to view the reporting conferences.

4. Contact the National office to make changes to the database (national@ssvp.ca). Inactive conferences are included in the database, closed conferences are not.
